CHAUTAUQUA A BIG SUCCESS

Large Crowds Continue to
Attend Each Session—
Good Programs.

Many Teachers at the Insti-
tute—Some Surprises
Sprung

Large crowds continue to attend each session of the Chautauqua. The tent was packed at the session last night and was well filled yesterday afternoon and again today. The management has been encouraged by the interest to the extent that it has sprung several surprises upon the public by adding to the talent that appears upon the program. Among the new faces to be seen are those of Rev. Sam Small, the noted evangelist, who is at present conducting a revival meeting in Indianapolis; Prof. Conner, of the Metropolitan School of Music; Mr. and Mrs. Noah Beilharz and others. Rev. Small was scheduled to appear today. The Chicago Glee Club, too, arrived today, and with Bill Bone, the poet and humorist, Dr. Daugherty and Dr. H. G. Hill formed the features of the program.

The forenoon today was devoted entirely to institute work with the teachers of the county. A larger number were in attendance than yesterday. Interesting and helpful talks were made by the instructors, Supt. Coffman, of Connersville, and Dr. Schaeffer, superintendent of the Pennsylvania State schools.

This afternoon the institute lasted until 2:30, an interesting talk being made by Supt. Coffman. The Chautauqua program did not open until that time. The prelude was by Bill Bone and Daugherty. This was followed by a concert by the Chicago Glee Club.

Tonight the feature of the program will be Dr. Hill's lecture on "One Sided People." Bill Bone and the Glee Club will give the prelude.

Last night the tent was packed with people. A second concert was given by the Rushville Concert Band, which was applauded at the close of every piece. Among the selections rendered were "March," "The Battleship Alabama," "Overture," "Manoa," and "Serenade," "Cupid's Chorus." Mrs. Noah Beilharz entertained the audience with some pleasing songs and with her husband rendered some good selections on the chimes. Mr. Beilharz gave some impersonations that were highly entertaining. Bill Bone on

volumes of applause with his recital of his "Automobile Race," and Prof. Conner proved equally popular.

The program for tomorrow includes a lecture by Dr. Wickersham, last year's favorite, and another lecture by Dr. Hill. It is as follows:

8:45—Opening Exercises.
9:00—Work—Supt. Coffman.
9:45—Rest.
10:55—Music.
10:05—Work—Dr. Shaeffer.
10:50—Rest.
11:00—Music.
11:10—Work—Supt. Coffman.
1:00—Music.
1:15—Work—Dr. Shaeffer.
2:30—Prelude—Chicago Glee Club and Bill Bone.
3:00—Lecture—Dr. H. G. Hill.
7:30—Prelude—Chicago Glee Club and Bill Bone.
8:00—Lecture—L. B. Wickersham.

MAN AT JAIL PASSED AWAY

Stranger Found in Comatose
Condition Died at 9 o'clock
Last Night

Richard Howard, the man, who was found in the woods, north of the Rushville Brick Works, Saturday morning, and who lay at the county jail in a comatose state for three days and two nights, died at 9 o'clock last night.

The body was taken to Caldwell & Company's undertaking establishment, where it was prepared for burial, and where it lies pending the arrival of relatives or friend from Indianapolis, who were notified.

Dr. E. I. Wooden, who attended the man, stated today that he died of cerebral hemorrhage, commonly known as apoplexy. There is a great deal of mystery about the man and the police and undertaker have been unable to learn much about his relatives or his history. The Augustus Miller who came here after the man Sunday, was formerly employed at Indianapolis. He is expected to look after the body.

Many who have seen the body at the morgue have remarked upon the similarity between the features and those of Norman Cook, who was shot and killed a year ago Sunday in the home of Mrs. Anna Bankert, south of town.

RUSHVILLE BAND GETS CONTRACT

Will Play Three Days at the
Fair—Many Stand Priv-
ileges Sold

The Fair Association has engaged the Rushville Concert Band to furnish the music at the Rush county fair, to be held during the last week in August. The band will play on Wednesday, Thursday and Friday, and will wear its new uniforms that week for the first time.

"The prospects for a good fair are very bright," said Secretary Megee today. "More stand privileges have been sold than ever before at this time of the year. The prospects are that there will be large exhibits in all classes, especially the poultry for which the premium list has been enlarged."

Mr. Megee now has the stockholders' tickets ready for distribution and the stockholders may get them by calling at his office.

MOSCOW WINS ANOTHER GAME

Fast Amateur Team Takes
Greensburg Shamrocks
into Camp.

The Greensburg News gives the following account of the ball game between the Moscow team and the Shamrocks at Greensburg Sunday:

In one of the most exciting games played at the fair grounds the Moscow Grays defeated the Greensburg Shamrocks by a score of 8 to 5. The game started like Moscow would have a walk over, but after the first inning the Shamrocks settled down and played a fine game. It was a pitchers' battle between Best and alterman with he latter having a shade better of it. The game was witnessed by a large crowd. The score by innings was as follows:
Shamrocks 0 0 1 0 4 0 0 0—5 4 11
Grays 4 1 0 0 2 0 1 0—8 6 9
Best and Hess; Halterman and E. Toivis; struck out, by Best 1, 2; by Halterman, 16; bases on balls, off Best, 2; off Halterman, 1; double plays, Shamrocks 1.

WANTS CUSTODY OF SIX CHILDREN

Joseph Green Brings Suit for
Divorce—Says Wife Threw
Tea Cup at Him

Alleging that she treated him cruelly by calling him names and cursing him, throwing tea cups at him, telling that she had two men watching him, falsely accusing him with associating with other women and telling the neighbors that he had threatened to kill her and had driven her away from home, Joseph Green, who, yesterday, separated from his wife, Clarissa Green, today, through his attorney, Douglas Morris, filed suit for divorce and custody of the six children, now with the defendant. The children are Oral, age 12; Lottie, 10; Clifford, 8; Ruth, 6; Mary, 4; and George, 2. Mr. and Mrs. Green were married thirteen years ago.

BAD ACCIDENT TO YOUNG BOY

Burt Loudon of Waldron, Crushed
by Wheels of Wagon Load-
ed With Stone

Burt Loudon, the thirteen-year-old son of Mr. and Mrs. Dudley Avery, of Waldron, fell from a wagon loaded with stone Monday afternoon at three o'clock at the Avery quarries and the heavy wagon passed over his body, injuring him seriously, if not fatally. The lad went to sleep on the wagon and fell under the wheels. Just as he fell the horses started up and then stopped with a wheel resting on the boy's body. The boy was badly crushed about the hips and abdomen.

MILITIA RECRUITS HOLD MEETING

Over Forty Men Have Already
Enlisted—Wm. Cross to
Build Armory

The young men who passed the physical examination for the National Guard Company, being organized here, and who signed the muster, held a meeting at the court house last night, and discussed plans for the completion of the work of organization.

The plans for the armory, which is to be erected by William Cross at the intersection of Julian and First streets, have been drawn and the cost estimated. Mr. Cross is waiting on the company to organize and as soon as the men who have not yet taken the examination, are examined, the company will meet and elect officers, and be mustered into the service by Capt. Gerard, of Indianapolis. Forty-two men have been examined and have signed the muster roll. Sixty-two are needed before the company can be mustered in.

TICKLED BECAUSE HE CHOSE TO SIT DOWN

The Connersville News says, "The Rushville Star, in its report of the Democratic convention, summarized the matters alluded to by Judge Morris, in his speech accepting the chairmanship of the convention, and adds: 'He was loudly applauded when he took his seat.'"

It is characteristic of an American audience to give vent to its feelings when something pleasing occurs."

AGED WOMAN IS PAINFULLY HURT

Mrs. Louisa Brown of Griffins,
Falls From Wagon on
Main Street

Mrs. Louisa Brown, wife of Joseph Brown, of near Griffins, while in the city about 9:30 this morning, delivering some garden truck, was painfully injured at the corner of Main and Third streets. She was accompanied by Harold Brown, aged 10, who was doing the driving. They were riding in a light spring wagon, containing five bushels of potatoes and one bushel of tomatoes. When the wagon turned the corner, one of the wheels struck a rail in the interurban tracks. Mrs. Brown slid off the end of the seat and fell to the ground. A rear wheel of the wagon passed across her abdomen before the horse could be stopped. Mrs. Brown was taken to the office of Dr. J. G. Lewis, who treated her. She suffered considerable pain, but was able to walk again at noon. Policeman Pea took charge of the wagon, delivered the garden truck, turned the money over to Mrs. Brown, and placed the horses in a feed barn. Mrs. Brown was able to go to her home this afternoon. It was feared that Mrs. Brown had been seriously injured internally. She is about sixty years old.

BOTH CANDIDATES ON THE PROGRAM

Watson and Kuhn Will Speak
at Wayne County Old
Settlers Picnic.

James E. Watson and Rev. T. H. Kuhn, Republican and Democratic candidates for Congress, respectively, will be the speakers at the annual meeting and picnic of the Wayne County Old Settlers' Association, to be held in King's grove, north of Centerville, next Saturday. The executive committee held a meeting last Saturday afternoon and arranged the program for the day. The addresses by the two candidates for Congress will conclude the afternoon program.

It is announced by the committee in charge that there will be no politics in the two addresses. It is supposed that the candidates will endeavor to conform with this request by the committee.

LOCAL BREVITIES

Jesse W. Guire is laid up with a badly sprained ankle.

John Rosenorans has completed a water well for William Helm, on his farm in Union township. The well is ninety feet deep and water stands within twenty feet of the top.

New Castle Courier: A camping party consisting of Misses Helene Goodin, Elsa Krell and Mida Bundy, and Messrs. Maurice Goodin and Hudson Landers, of this city, and Mr. and Mrs. Earl Churchill, of Rushville are enjoying outdoor life along the banks of Flatrock, south of Rushville, where the week will be spent. An experienced cook has been taken along and it was the intention to secure the services of a native guide in order that fish might be had every day for dinner and to keep any member of the party from straying into the byways and getting lost in the wilds of Rush county. This will be a new experience for "Col. Cobb of Kentucky," for he says he never even baited a hook in his life.

The temperance committee of the Southern M. E. conference reported in favor of a rule which would prohibit the use of tobacco by young pastors.

The London police estimate that the street beggars of that city collect every year \$1,500,000.

BURNED IN A GAS EXPLOSION

Mrs. W. A. Stewart Suffered
Painful Injuries this
Morning.

Mrs. W. A. Stewart, of North Morgan street, was severely burned about the face and neck this morning by the explosion of gas in the kitchen gas range, as she was attempting to light the fire preparatory to cooking breakfast. Her dress was badly scorched, but luckily for her, did not catch on fire.

SOLDIERS HAVE DRAWN MONEY

Checks Have Been Pouring
in for Boys of Old Com-
pany H.

The boys of Company H, One Hundred and Sixty-first Indiana, have about all been paid off. The first checks came about a week ago, and numerous additional checks have been coming since that time. The checks call for something over \$27, and it is just like getting money from home to receive it.

This money pays for the interval between the time the company was accepted and mustered into service. The boys were enlisted in June and remained here until July, when they went to Indianapolis and went into camp Mount. They were mustered in July 13th, 1898. When they were finally discharged they were never paid for the few days before muster, and for the past few years attorneys and soldiers have been working to secure the money from the government.

SHE DOES NOT WANT WILLIAM

Widow Says She Has Not Found
Marriage to be a Fail-
ure, However.

Dear Editor:—It is with mingled scorn and pleasure that I read your article "Look Up Widows," in which you refer to a certain old gentleman who wants to get married. I scorn the widows and spinsters who have been trying to entrap this innocent old gentleman. It is with pleasure that I can say that I have never sought a man's hand or heart and I have been married successfully four times; neither has marriage been a failure with me. I am sure that I would be willing to try it again, but I want you to know that I am not one of those women who is out hunting a man and if you refer to me you are mistaken. If you are a gentleman, Mr. Editor, you will not refuse to send a reporter around to see me to get my views on matrimony, or send the "fine old gentleman" around so that I can look him in the eye and tell him that I am not "hunting for an old man" to sit with on his porch for I have a nice front porch of my own.

Now, Mr. Editor, I hope you will not abuse the confidence I put in you. Please do not put my name in your paper.
Yours Truly,
Mrs. _____

Among African tribes it is customary to torture prisoners of war. One of the legs of the prisoner is pushed through a hole in a heavy log and a spike driven through to hold it in place.

Ivy does not make a house damp; on the contrary, its small roots extract every particle of moisture from the brick or stone to which it clings.

A favorable balance of more than \$517,000,000, representing excess of exports over imports makes financiers and business men regard 1906 as a stand-pat year.

Put down \$6,069,000,000 trade gain in only nine years to the credit of the party of Henry Clay, Abraham Lincoln, James G. Blaine, William McKinley and Theodore Roosevelt, and vote accordingly next November and all future Novembers.

James E. Watson, in his speech at Corydon, Ind., last Saturday denied that Roosevelt and Bryan stand together on many important questions. Among other things he said, "The President is one of the master minds of the world today and has the courage of lofty convictions. Bryan is still wedded to his idols. He stands for cheap money and free trade. Bryan advocates State control of public utilities because the South is against Government ownership and control."

Marion Butler, a former Democratic U. S. Senator from North Carolina says: "Bryan lacks nerve, the Democratic party lacks cohesion and organization. For these reasons Bryan, if elected, and backed up by a Democratic house and senate, will accomplish practically nothing." Of the Democratic party he observes: "It has

been a party of negation; it is magnificent at kicking and opposing; it is a failure when in power at producing results." Senator Butler has left the Democratic ranks and become a Republican, because he sees the Republican party gets together and does things which are for the advantage of the country.

Senator Bailey, of Texas, the present Democratic leader in the U. S. senate, said publicly when Bryan was nominated in 1896: "Bryan is not a Democrat. He never was one, and does not know the first principles of Democratic faith. He is a simon pure populist, and that is all you can make out of him. Does he not stand for the governmental ownership of railroads, and is not that one of the planks of the wild-eyed radical crowd to which Bryan belongs? No, sir; I could no more get along with Bryan than I have with old Cleveland."

The Democratic paper at Norfolk, Va., says: "If Mr. Bryan's Commoner doesn't shut up about free silver and the platform of '96, folks will get the idea that the whole graveyard of dead issues is to be galvanized into a simulation of life to frighten the Democratic children in 1908."

Bryan himself says he is as radical as he has ever been, and that he still believes in the exploded theory of free silver and the public ownership of railroads.

John Sharp Williams, the Democratic leader in the national house of representatives, has gone to meet Bryan in Brussels and will serve formal notices on him that if he wants the solid support of the Democrats of the South he must abandon the idea of advocating public ownership of railroads.

What could a party be expected to do but make trouble for the country, whose recognized leaders hold such conflicting views on such vital subjects? Nor have we quoted from Hearst, Parker or Grover Cleveland, for lack of space.

POLITICAL GOSSIP

A Chicago Reviewer's Notion of the Situation in the Hoosier State.

Indianapolis, Ind., August 14.—An article concerning political affairs in Indiana published in a Chicago paper Monday has caused considerable comment among the Republican politicians in Indiana. The article deals with the Fairbanks presidential boom and says that the Indiana delegation may be so arranged that if Fairbanks drops out of the race it may be turned over to "Uncle Joe" Cannon, whom the writer treats as a tentative candidate. It says further that Illinois may reciprocate by electing a Cannon delegation with Fairbanks leanings. The article reviews gossip of a similar kind that has gone the rounds here from time to time. The gossip had, however, that a split in the Fairbanks machine was imminent, a rumor that since has been acknowledged to be without foundation. The article in the Chicago paper revived another rumor, however, that has been given some credence. That is to the effect that an effort may be made to elect Hanly to the senate in the place of Senator Hemenway. Politicians close to the governor, however, laugh at this suggestion of the Chicago writer, and refer to the well-known friendly feeling that exists between the junior senator and the governor. That Mr. Hanly would attempt to defeat Mr. Hemenway politicians in Indianapolis laugh at as inconceivable. Both men have worked in harmony, they say, and there is no likelihood that they will ever be candidates against each other. That Hanly would like to go to the senate, however, they admit as possible, but think that he would not want to enter the term immediately after his governorship. The Hemenway-Hanly part of the Chicago writer's view of Indiana affairs has given rise to a good deal of mirth among the Indiana politicians at the capital.

Chairman Jos. T. Fanning called together the Democratic congressional convention of the Seventh district this afternoon. Henry N. Spann, a well-known Democrat and criminal lawyer of Indianapolis was made permanent chairman. He will have the unique distinction of calling to order and presiding over the congressional convention and then calling to order and presiding over a county convention for the purpose of selecting candidates for the state senate and house of representatives. There are two candidates for congressional honors, Edgar A. Perkins, president of the State Federation of Labor, and Frank E. Gavin, a well-known attorney. The primaries for the selection of delegates were held Monday. There was little excitement and only an average vote was polled. It looked as though Gavin would have the majority of the delegates. Mr. Taggart apparently has taken little interest in the affair, although it is understood that he has kept a quiet eye on events, and the presence of Chairman Fanning is an indication that the Taggart element means to have some voice in matters in the Seventh district. Mr. Fanning has for some months been in New York.

IN A BAD PLIGHT

Democrats In Third District
Can't Settle Their
Squabble.

THE COX-ZENOR FIGHT

Neither Contestant In the Dual Nomination Game Is Willing to Retire and Look Pleasant.

Zenor Is Now Preparing an Answer to the Recent Proposal of His Opponent.

Jeffersonville, Ind., Aug. 14.—After consultation with his friends in this city and New Albany, Congressman William T. Zenor is preparing an answer to the proposal of his opponent, William Cox, as to the settlement of differences in regard to the nomination for congress in the Third district. Zenor feels that Cox's plan is impracticable, as there is not time to carry it out. The plan proposed was to refer the matter to the circuit courts of Harrison and Dubois counties and appeal at once to the supreme court. The latter does not meet till October and attorneys say there is little chance of getting a decision in time. Zenor will suggest getting the matter before high legal authority in another manner, and it is understood one suggestion will be to have it referred in some manner to a Democratic ex-supreme or appellate court judge sitting in regular manner by appointment of the circuit judge in one of the counties of the district. Alternatives may be offered, among them, it is said, the plan of holding new primaries throughout the district, which is the method that Cox probably would not agree to, as he maintains he is duly elected and would refer only the legal questions involved, he said, to a competent tribunal.

Fontanet, Ind., Aug. 14.—An explosion of 200 kegs of powder in the Laffin & Rand powder mill resulted in the death of one man and the wrecking of the press mill of the plant. The cause is unknown.
Frank Hamilton, twenty-eight years old, unmarried, whose home is in Xenia, O., was at work repairing a machine when the explosion occurred. His body was hurled a hundred feet and torn to pieces. His head, arms and legs were severed from the body. The plant employs a hundred men, all of whom were waiting for the repair of the machine before they could go to work. This fact alone prevented more people from being killed.
The press mill in which the explosion occurred was blown to the ground, causing a loss of \$35,000. Many windows and smokestacks in the town were shattered and the report of the explosion was heard for fifteen miles around.

TERRIFIC EXPLOSION

Two Hundred Kegs of Powder Let Go at Fontanet.

Fontanet, Ind., Aug. 14.—An explosion of 200 kegs of powder in the Laffin & Rand powder mill resulted in the death of one man and the wrecking of the press mill of the plant. The cause is unknown.

Suspicion of Foul Play.

South Bend, Ind., Aug. 14.—It is now believed that Edward R. Murphy, whose body was found in the west race here, met with foul play. Circumstantial evidence discovered by the police and coroner indicate that such was the case. Murphy left home last Tuesday evening. It has been found that he visited a local gambling resort that night and won quite a large sum. No money was found on the body. Two men are said to have followed him when he left the place. Murphy came here recently from Logansport.

Oil Tank Cars in a Blaze.

Kentland, Ind., Aug. 14.—A freight train on the Chicago, Indiana & Southern was wrecked just north of this city and Conductor Fred Case suffered a broken leg. Six loaded oil tank cars and a number of freight cars were piled in a heap and their contents caught fire from a hot box. The oil spread over the tracks and debris and along the right-of-way for a quarter of a mile and burned furiously for twelve hours. The wreck train called was caught in the blaze and nearly destroyed.

John S. Bays Dead.

Sullivan, Ind., Aug. 14.—John S. Bays is dead of cancer of the liver, from which he had been suffering for six months. He is survived by a widow and three sons—Lee, Harold and Fred. Mr. Bays was the Democratic member of the Southern Indiana hospital board. He was a member of the Elks and Odd Fellows. Mr. Bays was attorney for the coal companies doing business in Sullivan county and was instrumental in the formation of the combine which now exists.

He Slept on the Track.

Petersburg, Ind., Aug. 14.—John Miller, thirty years old, a farmer, while on his way home from Velpen, sat down on the Southern railway track and went to sleep. A passenger train struck him and death resulted almost instantly.

Interesting Story of How the State Debt Was Paid.

CREDIT GIVEN TO TWO LAWS

Passed by Republican Legislatures, and to the Business-like and Economical Administration of Republican Governors in Past Ten Years.

[Special Indianapolis Correspondence.]
Democratic papers over the state are publishing two partisan statements relative to the finances of the state, which were prepared for that press by the Democratic state committee. The author of the articles is imposing on the Democrat papers and their readers in a most unfair manner. His misleading statements indicate he has a superficial understanding of the subject about which he attempts to make Democratic capital.
Two Statements of Democrats.

In condensed form the two Democratic partisan statements are as follows:

First—Admitting the Republican party has reduced the state debt from over seven and a half millions of dollars in 1895 under Matthews (Dem.) to less than one million now, with the explanation that the money was collected to pay this debt through a Democratic tax law.

Second—Declaring salaries and appropriations have been increased for state officers under Republican rule and are extravagant, and that appropriations for state officers were much less in 1893 under Democratic rule. Taxpayers Should Know the Facts.

Every taxpayer and citizen should know how the finances of the state have been and are being conducted, and briefly the facts are as follows:

Before 1895 most of the state officers received many fees in addition to their salaries. As stated above by our Democratic partisan friend, the salaries and appropriations were lower then than now, but in addition to their salaries the auditor, secretary of state, attorney general and other officers kept fees aggregating from \$10,000 to \$50,000 a year each. Of the fees collected but a small part was payable to the state.

A few years ago a Republican legislature put a stop to this abuse. It raised the salaries to a reasonable and living rate and provided that all fees collected should go into the state treasury. In the past three years alone, of which our Democratic friends complain, more than one and a half million dollars was collected in fees, under this Republican law and applied on the state debt. The Democrats never did anything like that.

These Are Official Figures.

Our Democratic writer on state finances makes comparison with now and ten years ago, to show greater appropriations for state officers now under Republican rule than ten years ago under the Democratic plan. That is true, but look at these official figures:

For years 1893-94-95.
Total fees collected for state by Democratic officers.....\$490,094
Appropriations for officers..... 198,240
Net profit for state.....\$291,854
For years 1903-04-05.
Total fees collected for state by Republican officers.....\$1,688,122
Appropriation for officers..... 445,668
Net profit for state.....\$1,242,454

Republican Law Works Wonders.

Almost one million more dollars saved the state under the new Republican law than under the Democratic plan. That extra money was what went to the state officers in Democratic days, when their salaries were a trifle lower than now. In these "expensive days of higher appropriations and salaries of state officers," that million dollars is what is saved for the people and to apply on the state debt. But that is not all.

Republicans Save on State Institutions

In 1893, those "good old days" of economy of which our partisan but misinformed Democratic friend writes, it cost the state an average of \$178.76 to care for each person in our several penal and benevolent institutions. Through a Republican law which took these institutions out of politics and placed them on an economical and a business-like basis, that per capita cost was reduced in 1905 to \$160.18, a saving of \$18.59 per person. In 1905 the population of these institutions was 12,640, and with the saving as above, the state also saves here nearly a quarter of a million of dollars on the management of its state institutions, compared with Democratic times. A quarter of a million more saved to apply on the state debt.

Reduce Debt About \$7,000,000.

These are the things that have enabled the Republican administration to reduce the state debt year by year from over seven millions under Democratic rule, to less than one million now, and that without raising the tax levy, except a fraction of a cent for increased school advantages.

These two Republican laws alone have saved millions of dollars in the past ten years to apply on the state debt, and to say the Republicans deserve no credit for paying off this big debt is not only to take a partisan and a false view of the subject, but is to admit a total misconception of the facts in the case.

BUSTER BROWN

It is just as easy for one firm in business as for another to "talk," but when it comes to "making good" that's different. It takes knowing how, money and a good name to get the best lines of goods into a store. It is a mistake to think that any merchant can buy any lines of goods he wants to buy. The makers of the best goods hunt for the best store in a town to handle their lines, and when a manufacturer has once placed his line in a store there it stays. This is where the knowing how comes in; then bills must be paid, that takes money; then the store must give its patrons a square deal—good stuff for their money—that begets a good name. The store that has these three things—knowing how, money and a good name—becomes the whirlpool into which the best lines of goods made drop and stay. Look at the lines that have dropped into our "whirlpool!"

GREAT RECEPTION

Minneapolis Is Proudly Doing the Right Thing by the Veterans.

CITY IS GAILY DECKED

In Magnificent Fashion Has the Flour City Risen to the Occasion Thus Presented to It.

Among the Veterans There Is a Lively Contest on For Next Commander-in-Chief.

Minneapolis, Aug. 14.—The rush of visitors to this city for the annual encampment of the Grand Army of the Republic continues unabated and the present prospect is that the meeting will be one of the most successful ever held by the Grand Army. According to the estimates of railroad men fully 100,000 people have so far arrived and dozens of trains running in two and three sections are still on the way.

Minneapolis has risen to the occasion in magnificent fashion, and it is difficult to mention anything that could be done for the entertainment and comfort of her visitors which has not already been provided. At nearly every corner in the business section of the city is situated an "information booth" which is tenanted by a young man of education who knows his business and is capable of answering all sorts of questions in a satisfactory manner. A feature of the thoughtfulness that underlies the entire work so far done by the local entertainment committee is found in the numerous benches that are stretched along both sides in all the downtown streets. They are rough affairs, fashioned crudely out of unplanned plank, but they afford a resting place for tens of thousands of wearied pedestrians.

The city itself is decorated as though every man had made it his personal business to see that Minneapolis looked her bravest and best. Flags and bunting are everywhere from roof to sidewalks and banners are swung in endless profusion across the streets. The decorations, lavish as they now seem, are still in progress, but they will be increased until tomorrow morning, when all the business houses of the city will close in honor of the great parade.

The contest for national commander is growing warmer, although no great amount of electioneering has so far been done. The friends of Captain P. H. Coney of Kansas are making what is outwardly the most aggressive campaign and claim to be fairly confident of the election of their man. Other candidates whose names are being strongly pushed are R. B. Brown of Zanesville, O., and Charles G. Burton of Missouri.

A meeting of the executive committee of the G. A. R. was held to determine matters of routine relative to the business meeting of the encampment, which commences on Thursday morning. It is expected that considerable debate will result over the recent law passed by congress driving the canteen out of the old soldiers' homes. Commander-in-Chief Tanner is in favor of the passage of a resolution deprecating the purpose of this law, but a strong element in the organization is against such action.

Another feature that may crop up is the old fight over the proposed erection by the women of the South of a statue of Henry Wirz, notorious for his atrocities while in command at Andersonville prison. This matter came up in 1901 and has been more or less alive ever since. All members of the Grand Army are vehemently opposed to the erection of a statue to Wirz, who was hanged for his crimes, but many of them declare that in their opinion the intention to erect the statue is not serious, and as the matter now stands not worth the consideration, which some are disposed to give it. The social features of the encampment, which are numbered by the hundreds, commenced with regimental reunions and a reception given by Governor Johnson at the new capitol in St. Paul to the visiting veterans. In the receiving line by the side of Governor Johnson stood Commander Tanner and other notables of the state and of the Grand Army. The program for today consists largely of receptions and business meetings by numerous affiliated societies and reunions of various regiments.

Ann Gets Her Ticket o' Leave.
London, Aug. 14.—Ann O'Delia Diss DeBar, who under the name of Laura Jackson was sentenced on Dec. 20, 1901, to seven years penal servitude for connection with an immoral cult known as the "Theocratic Unity," of which her reputed husband, Theodore Jackson, was the head, has been liberated from Aylesbury prison under ticket-of-leave, having obtained the maximum reduction of sentence by good behavior.

Lunacy Proceedings.
Oyster Bay, Aug. 14.—Lunacy proceedings have been instituted against Miss Asi L. Esac, or Elizabeth Case, who created a disturbance during the church service attended by President Roosevelt Sunday. Should Miss Case remain within the jurisdiction of Nassau county officers until tomorrow she will be taken before Judge Jackson at Mineola for commitment as an insane person.

COMPARED WITH THE PAST

The Present Condition of Labor Is Most Satisfactory.

Washington, Aug. 14.—A report has been issued by the bureau of labor of an investigation in wages and hours of labor in 1905 in the principal manufacturing and mechanical industries of the United States. The average wages per hour in 1905 were 18.9 per cent higher than the average for the ten-year period from 1890 to 1899 inclusive. The number of employees was 33.6 per cent greater and the average hours of labor per week were 4.1 per cent lower. The average earnings per week in 1905 were 14 per cent higher than the average earnings per week during the ten years from 1890 to 1899. The aggregate weekly earnings of all employees, that is the total amount of the pay-rolls were 52.3 per cent higher in 1905 than the average during the ten-year period named.

The retail price of the principal articles of food, weighted according to family consumption of the various articles, was 12.4 per cent higher in 1905 than was the average price for the ten years from 1890 to 1899. Compared with the average for the same ten-year period, the purchasing power of an hour's wages in 1905 was 5.8 per cent greater and of a week's wages 1.4 per cent greater. The increase in purchasing power of weekly wages being less than the increase in purchasing power of hourly wages because of the reduction of the hours of labor during the period.

The average wages per hour in 1905 were 21.5 per cent higher than 1894, the year of lowest wages during the period covered, and weekly earnings were 16.7 per cent higher. The purchasing power of an hour's wages was greater in 1905 than in any other year covered by this investigation; 7.7 per cent greater than in 1894, year of lowest wages, and 1.3 per cent greater than in 1896, the year of lowest retail prices. The purchasing power of a week's wages in 1905 was 3.5 per cent greater than in 1894, but 2.7 per cent less than in 1896.

In making the inquiry the labor bureau attempted to cover only those industries in which the wages paid in the United States in one year were \$10,000,000 or over. The data presented was obtained in all cases by special agents of the bureau through personal visits to the establishments represented.

Fixing the Responsibility.

Brighton, Eng., Aug. 14.—A case involving the responsibility of retailers of canned goods was heard here, in which a merchant was charged with exposing for sale thirty-eight tins of chicken unfit for human consumption. In defense it was contended that it was absolutely impossible for the dealer to know the condition of the food when there was nothing externally to indicate that the contents of the cans were unsound. Nevertheless the merchant was fined, the magistrates holding him amenable to the law, as he was in possession of the goods.

No Danger of Complications.

Tokio, Aug. 14.—Despite alarmist reports, there is no danger of the killing of Japanese seal poachers on St. Paul Island, Alaska, assuming a state of international gravity. The American ambassador at Tokio assured Japan that his government will investigate carefully and equitably into the matter and said he hoped that Japan would not allow the cordial relations existing between the two countries to be interfered with by so trivial an affray.

Trusted Bank Employee Speculated With Other Peoples' Money.

SHOCK TO HIS FRIENDS

When Teller Chisholm Was Arrested at Birmingham, Ala. the Whole Town Was Astonished.

He Confesses Embezzlement of Nearly \$100,000 and Implicates Two Brokers.

Birmingham, Ala., Aug. 14.—Alexander R. Chisholm, paying teller of the First National bank, arrested yesterday charged with the embezzlement of \$97,600 of the bank's funds, was given a preliminary hearing before United States Commissioner R. B. Watts, was put under bond of \$50,000 and failing to make it, is in the custody of the United States officials at one of the principal hotels of the city.

W. L. Sims and C. L. Hayes, manager and assistant manager of one of the chief stock and cotton brokerage houses in the city, were also arrested, charged with aiding and abetting the embezzlement of national bank funds. They were also given a preliminary hearing and Sims's bond was fixed at \$50,000 and Hayes's at \$10,000. Both have made bond and are at liberty.

The shortage at the First National bank was discovered while Chisholm was on his annual vacation. The bank has a large reserve fund on hand and it was from this that the amount was taken. There was no regular time for counting the cash in the cash reserve fund, which accounts for the fact that the shortage was not discovered sooner. Officials decided to wait and allow Chisholm to return voluntarily. When he stepped from the train yesterday he was confronted by the federal officials and several directors of the bank. He at first stoutly denied any knowledge of any shortage, but later in the presence of the directors made a full confession.

W. P. G. Harding, president of the bank, made a statement to the effect that the bank would not lose the whole amount and that it would not affect the institution. The bank has a capital of \$1,000,000 and a surplus of \$400,000. When Chisholm was arrested \$3,000 was taken from his suitcase. He was bonded by one of the large bond companies for \$30,000. The difference between these amounts and the shortage has already been taken from the undivided profits account of the bank and charged to profit and loss.

Young Chisholm was one of the most popular young men socially and personally in Birmingham. He comes from one of the best families in the South and numbered his friends by the hundreds. The announcement that Alexander Chisholm was a defaulter came like a thunderbolt from a clear sky and no one was more surprised than his most intimate associates.

It is stated that practically all of the money embezzled by Chisholm has been used in speculation in cotton futures and that his losses have extended over a period of several months. It is said that he traded under an assumed name, made all his payments for margins in cash, and that not one of his intimate friends knew aught of the transactions.

Two warrants were issued against Chisholm, one against Sims, one against Hayes and one against P. G. Smith, who also operates an exchange immediately in the rear of the bank. The first charges against Chisholm and Smith are named, charging that Chisholm aided, abetted and procured, and aided by Smith, did willfully embezzle various sums of the bank's funds. The method of procedure was a simple one. Smith merely went to the teller's window, drawing a check for whatever amount might have been agreed upon, and in exchange for the worthless check Chisholm would pass over the money.

They Want Stensland.

Chicago, Aug. 14.—The banks of the Chicago Clearinghouse association have offered a reward of \$5,000 for the apprehension of Paul O. Stensland, fugitive president of the Milwaukee Avenue state bank. So anxious are the bankers to capture the accused official that a conference was held to decide upon some action to assist the police authorities in their search for Stensland, and the passage of a resolution to pay this reward was the result.

More Icemen in Trouble.

Boston, Aug. 14.—Secret indictments against seventeen ice dealers and six ice companies, which were returned by the Suffolk county grand jury on Saturday last, have been made public in the superior court. The ice dealers are charged with having unlawfully conspired "to regulate, advance and fix the price of ice for public sale" and the ice companies are charged as corporations with conspiracy.
